Udyam Digital

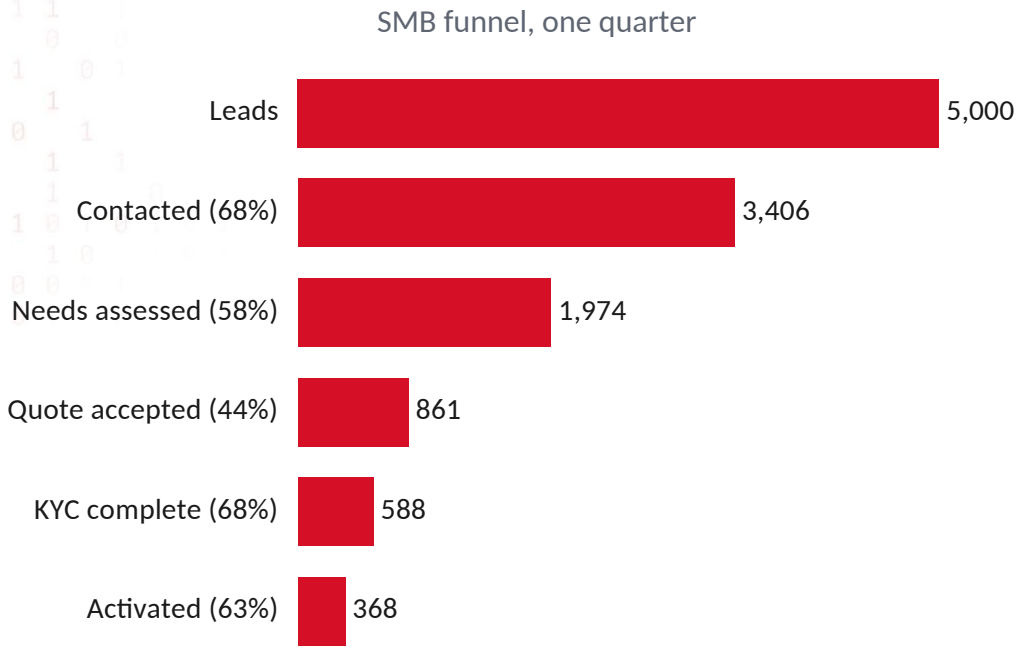

Find, buy and activate the right business bundle in one sitting: on a phone, in the owner's language

Enterprise Track A · Business case for Accel Business

Platform Partner unstop

Only 7% of SMB leads activate, and most are lost long before KYC

17.6 days

from lead to activation, with 3 status-chase calls per customer

₹15,053

acquisition cost per activated SMB, vs a ₹6,900 median monthly bundle

77%

of owners prefer a language other than English; today's journey is English-first

Source: smb_leads.csv, 5,000 leads, Apr–Jun 2026 (synthetic). % = conversion from previous stage.

Every major drop reason maps to a step we can automate

Lost at stage	Top reasons owners gave	What Udyam Digital does
Lead 1,594 lost	Unreachable after 3 attempts (805) · Not interested on first call (470) · Wrong number (319)	**Owner starts the chat (QR, WhatsApp, web), so the number is verified and intent is real**
Contacted 1,432 lost	No time for a visit (531) · Locked in with provider (325) · Visit not scheduled (296)	**24×7 self-serve advisor in 10 languages: no visit needed**
Needs assessed 1,113 lost	Price too high (414) · Cheaper competitor (207) · Quote too complex (206) · Too slow (179)	**Instant quote, one monthly price, add-ons the owner can switch on and off**
Quote accepted 273 lost	Missing GST/Udyam doc (94) · Paperwork too long (79) · Details didn't match (47)	**Smart KYC: registry prefill, document AI, clear fix-it messages**
KYC complete 220 lost	Install delayed >21 days (98) · Cancelled before install (53) · Site not feasible (41)	**Feasibility checked before payment; live tracker with an ETA**

Lead with professional offices; win micro retail with a digital starter

Segment	Share of leads	Acq. cost / activation	Avg bundle / mo	Payback	6-mo churn
Micro retail	54%	₹20,007	₹2,505	8.0 mo	23%
Professional offices	25%	₹10,695	₹6,796	**1.6 mo**	14%
Multi-site	15%	₹15,614	₹31,233	0.5 mo	11%
Manufacturers	6%	₹15,324	₹19,980	0.8 mo	8%

Priority: 1) Professional offices, fully digital. 2) Micro retail with a ₹2.2k starter, digital only: acquisition cost must fall below ₹3k. 3) Multi-site and manufacturers through assisted sales: highest value per account.

Micro retail is half the leads but loses money today: ₹20k to acquire, ₹2.5k a month, 23% gone in 6 months.

Acquisition cost = all sales and partner spend in the segment ÷ activations. Payback = acquisition cost ÷ average monthly bundle.

Platform Partner unstop

Four bundles, each with one monthly price set by the rules engine

Dukaan Starter

Kirana, salon, pharmacy · 3 staff

₹2,196 /mo

- Biz Fibre 100
- 2 business SIMs
- Cloud POS & billing
- Add CCTV: ₹199 per camera

12 months · setup ₹2,500

Self-serve digital

Clinic & Office Pro

Clinic, CA firm · 8 staff

₹4,592 /mo

- Biz Fibre 300
- 2 priority SIMs
- Email on own domain × 8
- Cloud backup 1 TB
- Endpoint security × 4

12 months · no setup fee

Self-serve digital

Multi-site One

Restaurant/retail · 3 outlets

₹28,045 /mo

- Fibre 300 + 4G/5G failover per site
- Managed SD-WAN
- POS × 3, CCTV × 6
- Managed firewall

24 months · setup ₹49,800

Digital + partner survey

Factory Connect

Small unit · 30 workers

₹22,617 /mo

- Leased line 20 Mbps, 99.5% SLA
- Machine IoT sensors × 6
- 10 SIMs, email × 30
- Managed firewall

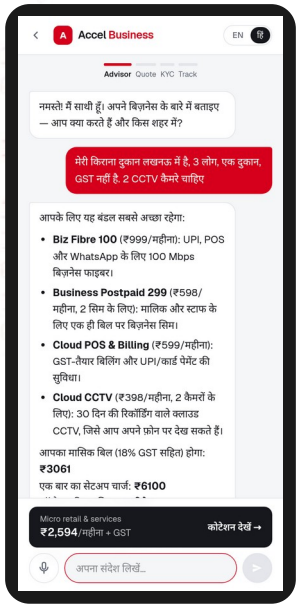

24 months · setup ₹32,000

Assisted (feasibility)

Prices from product_catalogue.csv list prices, excluding 18% GST. Bundles generated by the prototype's rules engine for a typical profile.

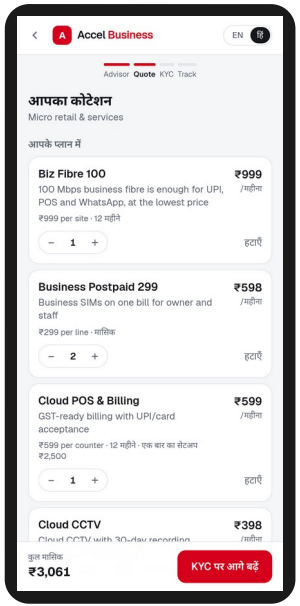

Platform Partner unstop

From chat to activation on a phone: no visit, no paperwork

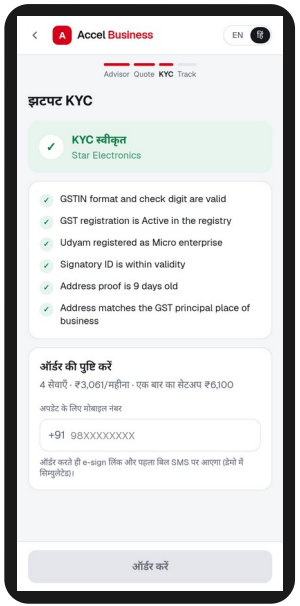

1 Advisor

Chat or speak in Hindi or English; GenAI explains the bundle

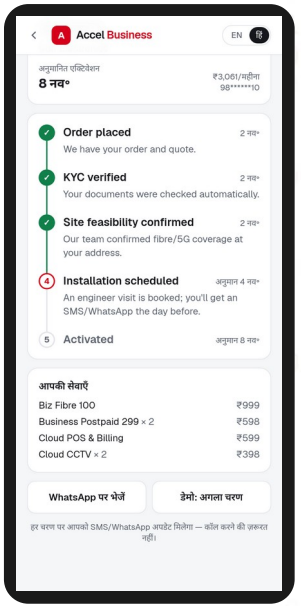

2 Quote

One monthly price; switch add-ons on and off, total updates live

3 Smart KYC

Consent, GSTIN/Udyam lookup, document AI, 15+ checks

4 Tracker

Live timeline and ETA; WhatsApp updates instead of calls

Screens from the working prototype (Next.js + FastAPI + Gemini), shown in Hindi.

Platform Partner unstop

Smart KYC verifies a business in minutes and closes a compliance leak

Consent first (DPDP Act)

Purpose-wise consent, what we collect and never collect, retention, withdraw anytime

Registry lookup

GSTIN and Udyam checked live: status, legal name, address

Document AI

Gemini vision reads 4 documents; fixes OCR slips only if the check digit agrees

15+ automatic checks

Check digit, active status, names and addresses across documents, 90-day bill, ID expiry

Instant verdict

Approve, re-upload or reject, with a reason the owner understands

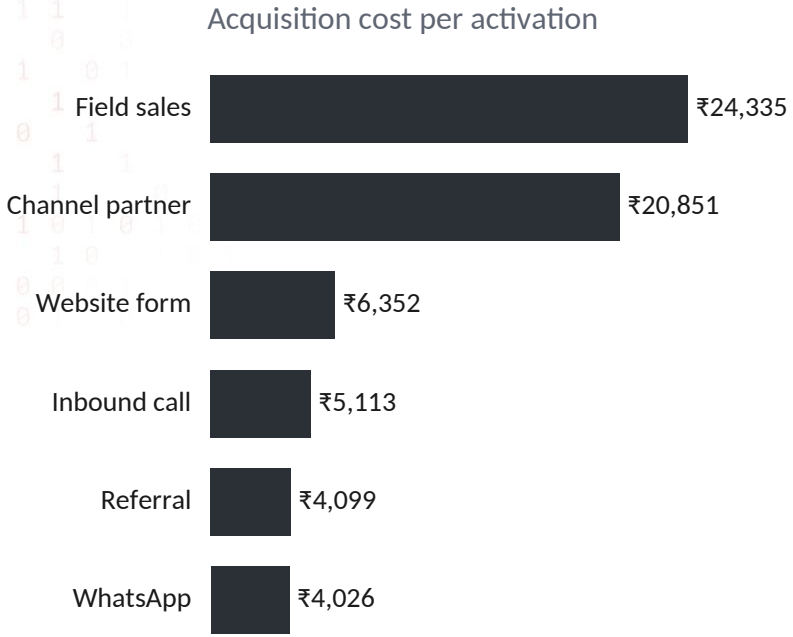

12 applicants: 5 approved · 1 re-upload · 6 rejected

- Cancelled GSTIN + blank Udyam number (K01)
- Udyam certificate missing (K05)
- One GSTIN digit changed: check digit fails (K06)
- Edited legal name on GST certificate (K07)
- Address proof 257 days old (K11)
- Blurred certificate: ask to re-upload (K04)

22 customers activated last quarter had a cancelled or suspended GSTIN. A live registry check blocks this at sign-up.

Results from running the prototype on the 12 specimen applicants (K01–K12) and on mock_gstin_registry.csv.

Digital runs the routine sale; people win the complex accounts

Self-serve digital

Micro retail and professional offices (~80% of leads)

Advisor, quote, KYC and tracker end to end. A person joins only if the owner asks.

Local channel partners

Same leads, earned not lost

Get every lead the advisor can't close, with context; earn commission on QR-code sign-ups; do installs.

Field sales

Multi-site, manufacturers, leased lines

Work a call list ranked by a propensity score; use the same app on a tablet for the quote and KYC.

Acquisition cost per activation by lead source = total spend on leads from that source ÷ activations (smb_leads.csv).

Five metrics define success; hitting them doubles activations

Metric	Today	12-mo target	Main lever
Lead → activation	7.4%	**15%**	Self-serve advisor, instant quote
Days lead → activation	17.6	**5**	KYC in minutes, feasibility upfront
Acquisition cost / activation	₹15,053	**₹6,000**	Digital and partner-referral mix
6-month churn (micro)	23%	**12%**	Right-sized bundle, one bill
Status-chase calls / customer	3.0	**0.5**	Live tracker, WhatsApp alerts

+382

activations per quarter (368 → 750)

−₹10 lakh

acquisition spend per quarter (₹55.4L → ₹45L)

+₹26 lakh

monthly recurring revenue added each quarter

Value per quarter assumes the same 5,000 leads; added revenue valued at the ₹6,900 median bundle (conservative vs the ₹12,351 average).

Platform Partner unstop

Pilot in four cities in 90 days, then scale language by language

0–3 months · Pilot

Mumbai, Pune, Nagpur, Lucknow

Hindi, Marathi, English · partner QR codes · weekly funnel review

3–6 months · Expand

All tier 1 cities

+6 languages · WhatsApp front end · back-office lead console

6–12 months · Scale

Tier 1 and tier 2 nationwide

DigiLocker + e-sign live · pricing tests · propensity-led field sales

Key risks and how the design contains them

AI suggests a wrong or ineligible product

The rules engine picks products and prices; the AI only explains. Judge-style scenarios run as tests

Fake or misread documents

Registry cross-check, GSTIN check digit, cross-document name match; human review when in doubt

Field force or partners feel bypassed

Partners credited for digital sign-ups in their area; complex leads routed to them with context

Privacy and DPDP compliance

Consent per purpose, images deleted after verification, IDs masked, audit log of consents

Pilot cities chosen from the highest-volume tier 1 and tier 2 cities for Hindi and Marathi speakers in smb_leads.csv.
